

ELSEVIER

ScienceDirect

User Quick Start Guide

Enabling efficient research for 21 years and counting, Elsevier's ScienceDirect lets you explore wide-ranging subjects in:

From basic science to current developments to novel research, researchers worldwide are downloading two million PDFs of relevant content each day from ScienceDirect.

A ScienceDirect subscription gives you access to 18 million full-text articles from over 2,650 journals and more than 42,000 book titles. With more than 1,400,000 open access articles at your fingertips, the next big step towards discovery is up to you!

Let's get you started...

Create a user account

With an [Elsevier account](#), you unlock features specifically designed to support your research goals. Having an account enables you to:

- Set up alerts for searches, journals and book series
- Receive recommendations personalized to your reading history
- Access and manage your reading and search history
- Review the [privacy options](#) for your account

Search

Now that you're on [ScienceDirect](#), it's time to look around.

The ScienceDirect search functionality offers a multitude of search fields, filters and alerts to focus your search and improve your workflow. First, choose the search technique you prefer.

If you want a broad search that you can filter afterwards, head to the [search bar](#) for a quick search:

ScienceDirect

Journals & Books

John Johnson

Search for peer-reviewed journal articles and book chapters (including [open access](#) content)

[Advanced search](#)

Enter keywords, an author name, or the title of a journal or book to get started.

Search

You might want to begin with a narrow search instead, so click on [Advanced Search](#) where you'll see how easy it is to get specific. Your previous searches will be conveniently saved for you at the bottom of the page.

On the Search results page, you can:

- Filter for open access/open archives articles
- Check out suggested publications
- Set search alerts
- Download search alerts list as a .CSV

Advanced Search

Easy to evaluate journal homepages

When your research takes you to the homepage of a journal, all information about that journal is easily accessible. You spend less time trying to find the right information and more time using what you find in your workflow.

- Improved navigation allows you to discover relevant content faster
- Access indicators help identify available content, including open access
- Easy links to submit your article or find the Guide for author

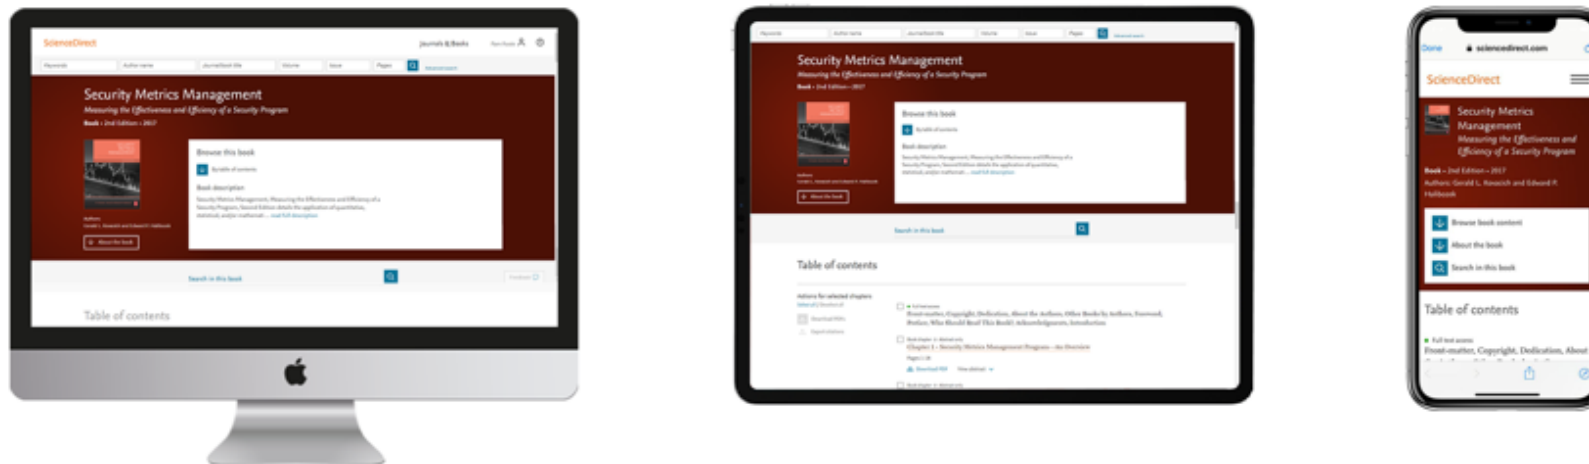

The screenshot displays the ScienceDirect journal homepage for *Tourism Management*. The header includes the ScienceDirect logo, navigation links for 'Journals & Books', a search icon, a help icon, and a user profile for 'John Johnson'. The journal title 'Tourism Management' is prominently displayed in a blue banner, along with its CiteScore (16.5) and Impact Factor (10.967). Below the banner, there are navigation options: 'Articles & Issues', 'About', 'Publish', a search bar for 'Search in this journal', and links to 'Submit your article' and 'Guide for authors'. The main content area is divided into sections: 'Latest issue' (Volume 89, April 2022), 'About the journal' (formerly known as International Journal of Tourism Management), and an 'Editorial Board' section featuring Cathy Hsu (Editor-in-Chief), Stephen Page (Editor), and Sangwon Park (Managing Editor). A 'FEEDBACK' button is located in the bottom right corner.

Clear identity via book homepages

When you access books on ScienceDirect, you'll see right away that you're consulting a trusted, high-quality source. The book homepages include:

- Detailed book information
- Intuitive ways to navigate and interact with content
- One-second load times

Plus, go ahead and browse books on multiple devices wherever you are.

ScienceDirect Topics expand your knowledge with foundational content

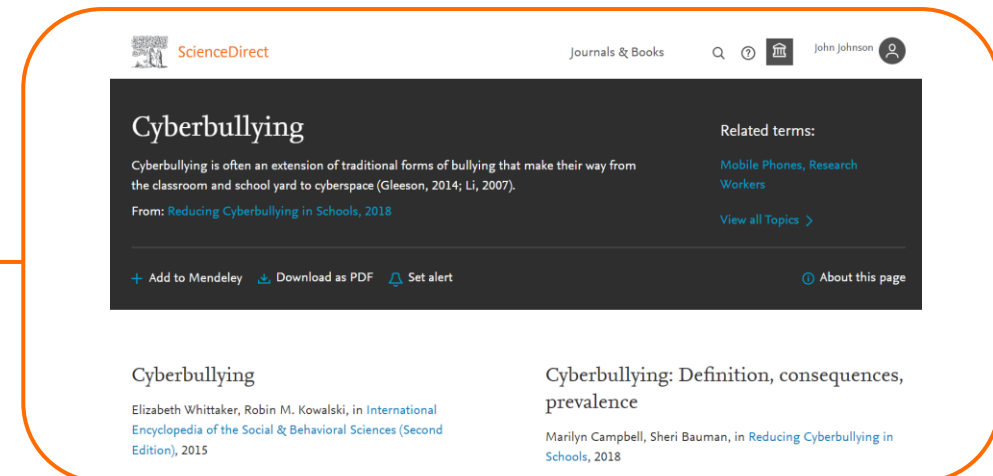

[ScienceDirect Topics](#) have become a popular feature for researchers and students looking to broaden their understanding of scholarly and technical terms. Topics are especially useful for onboarding in interdisciplinary research or just to learn or better understand a new concept.

Topics reveal succinct, selected contextual information from reference books, valuable content when and where you needed it in your natural research workflow. You can access Topics via ScienceDirect and also through search engines such as Google.

When working in ScienceDirect, simply hover over a highlighted word in the article you're reading. Via hyperlink, you can immediately go to a page with authoritative and foundational content for that term.

1. Introduction

Problematic internet use (PIU) is a fundamental contributor to prolonged screen-time, elevating the odds of mental and socioemotional difficulties among teenagers (Oswald et al., 2020), and associated with a wide spectrum of risky online activities, encompassing but not limited to **cyberbullying** internet pornography, and internet fraud (Chao et al., 2020), of which cyberbullying is in the focus of the present study. The prevalence

The screenshot shows the ScienceDirect interface for the topic 'Cyberbullying'. At the top, the ScienceDirect logo is on the left, and 'Journals & Books' with a search icon and a user profile 'John Johnson' are on the right. The main content area has a dark background with the title 'Cyberbullying' in white. Below the title is a brief definition: 'Cyberbullying is often an extension of traditional forms of bullying that make their way from the classroom and school yard to cyberspace (Gleeson, 2014; Li, 2007). From: Reducing Cyberbullying in Schools, 2018'. To the right of the definition is a 'Related terms:' section with links for 'Mobile Phones, Research Workers' and 'View all Topics >'. At the bottom of the main content area are links for '+ Add to Mendeley', 'Download as PDF', and 'Set alert', along with 'About this page'. Below the main content area, there are two columns of related content. The left column is titled 'Cyberbullying' and lists 'Elizabeth Whittaker, Robin M. Kowalski, in International Encyclopedia of the Social & Behavioral Sciences (Second Edition), 2015'. The right column is titled 'Cyberbullying: Definition, consequences, prevalence' and lists 'Marilyn Campbell, Sheri Bauman, in Reducing Cyberbullying in Schools, 2018'. An orange line connects the 'cyberbullying' text in the article to the 'View all Topics >' link in the screenshot.

ScienceDirect Topics expand your knowledge with foundational content

You'll see

- A short definition
- Related terms
- Excerpts from relevant book content

Add to Mendeley, download as PDF or set an alert to save your sources and unlock critical and contextual information to find the answers you need.

If you're using Google or another search engine to get more information about a term, just enter the term and ScienceDirect, and it comes up. With enhanced taxonomy across all 20 Topic domains, Topic pages are available for many disciplines including:

- Computer Science
- Engineering
- Mathematics
- Physics and Astronomy
- Economics, Econometrics and Finance
- Food Science
- Materials Science and Materials Engineering
- Earth and Environmental Sciences
- Psychology
- Social Sciences

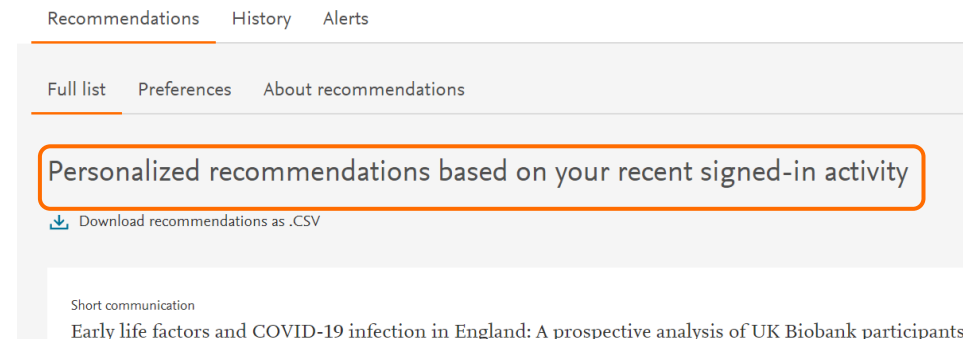

Stay signed in to get personalized recommendations

You can prevent information overload by staying signed in while you browse and search in ScienceDirect. Personalized recommendations will make your research more effective. The more you interact with ScienceDirect while signed in, the more precise and relevant the recommendations become.

Let us help you direct the right content to you when and where you need it during your research process. We'll use machine learning and your online activity to suggest content tailored specifically to your needs.

On the homepage, click on your name and then '[My recommendations](#)' to see what our adaptive algorithm has found for you.

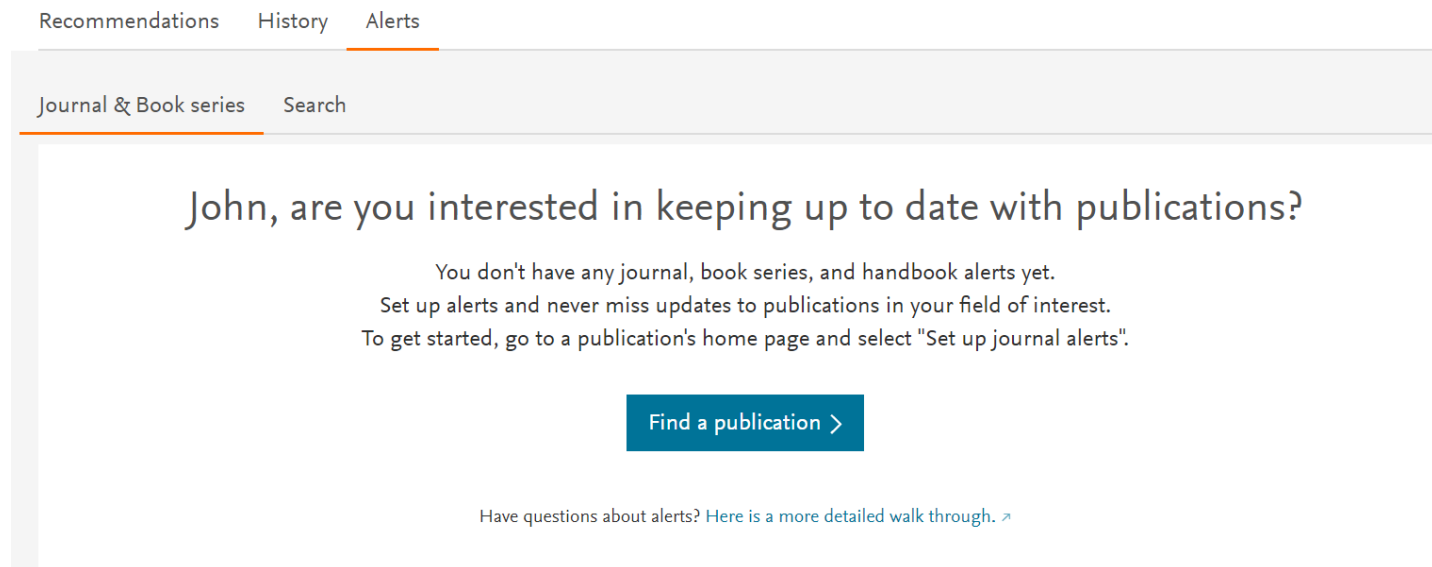

My recommendations offers you a complete list of recommended research content each week, delivered to you via email.

Schedule alerts about new relevant research

Unlike Recommendations, Alerts let you know about only new research that meets your criteria.

Once you've either searched in ScienceDirect or browsed publications, you can choose to sign up for alerts. Go to 'Manage alerts', then click on either 'Journal & Book series', 'Search' or both. You can select a publication or carry out a search to set the alerts you want.

The screenshot shows the 'Alerts' section of the ScienceDirect interface. At the top, there are navigation tabs for 'Recommendations', 'History', and 'Alerts'. Below this, there are sub-tabs for 'Journal & Book series' and 'Search'. The main content area displays a message to the user: 'John, are you interested in keeping up to date with publications?'. Below this message, it states: 'You don't have any journal, book series, and handbook alerts yet. Set up alerts and never miss updates to publications in your field of interest. To get started, go to a publication's home page and select "Set up journal alerts".' A blue button labeled 'Find a publication >' is centered below the text. At the bottom, there is a link: 'Have questions about alerts? Here is a more detailed walk through. >'

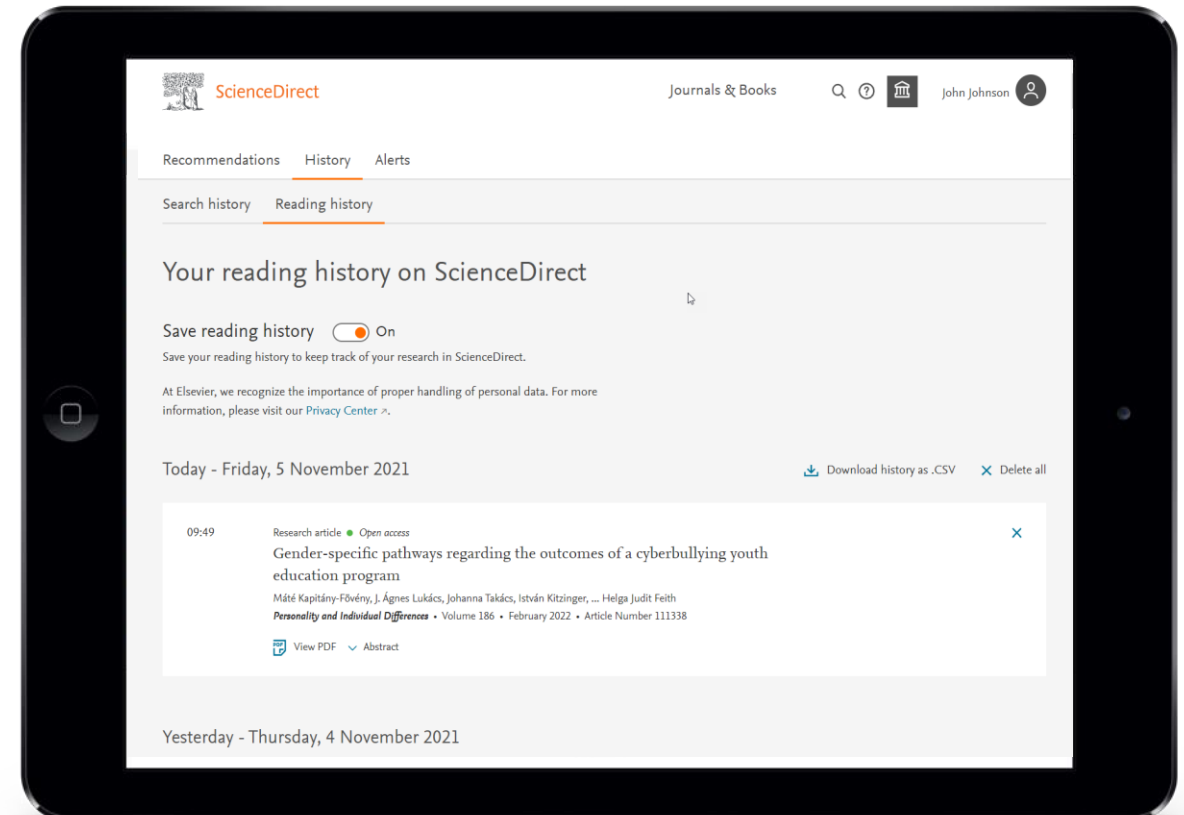

Easier tracking of your reading and search history

When signed in, your Search and Reading history helps you keep track of your activities.

The 100 most recent articles you have viewed will be saved in your reading history.

You can then review, save and delete items from your ScienceDirect Reading or Search history or download the full list of entries.

Use the toggle at the top of the screen to easily switch on and off your history.

Users can manage their reading history and customize settings

Quickly export your book chapters from ScienceDirect into Mendeley

Many of you also use [Mendeley](#), our free reference manager and an academic social network, seamlessly embedded in ScienceDirect. Knowing that importing PDFs and references from the web is an important part of many researchers' workflow, you can directly export articles from ScienceDirect into your Mendeley library

Once you've been authenticated on ScienceDirect, the Mendeley Importer will recognize that you have the right to access full-text PDFs and you can **add to Mendeley** with just one click.

The screenshot displays the ScienceDirect interface for a book chapter. At the top, the ScienceDirect logo is on the left, and navigation links for 'Journals & Books', a search icon, a help icon, a library icon, and the user name 'John Johnson' are on the right. Below the navigation bar, there are buttons for 'View PDF' and 'Download full book', and a search box labeled 'Search ScienceDirect'. The main content area is divided into three columns. The left column shows the 'Outline' for the book 'ABC Proteins' (From Bacteria to Man, 2003, Pages 393-422), listing sections like 'INTRODUCTION', 'PROPERTIES OF MRP1', 'CLINICAL RELEVANCE OF MRP1', and 'REFERENCES'. The middle column features the chapter title 'CHAPTER 19 - MULTIDRUG RESISTANCE PROTEIN 1 (ABCC1)' by Roger G. Deeley and Susan P.C. Cole. Below the title, there is a 'Show more' dropdown and a button labeled '+ Add to Mendeley' which is highlighted with an orange box. Other buttons for 'Share' and 'Cite' are also visible. The bottom of the middle column shows the DOI: <https://doi.org/10.1016/B978-012352551-2/50020-2> and a link to 'Get rights and content'. The right column displays 'Recommended articles' with three entries, each with a 'Download PDF' button and a 'View details' dropdown. At the bottom of the right column, there is a pagination indicator '1 2 Next >' and a section for 'Citing articles (0)'. The Elsevier logo is visible in the bottom left corner of the screenshot.

Share articles with your colleagues with just a click

Social Sharing allows you to easily share articles right from ScienceDirect via your Facebook, LinkedIn, Twitter, Reddit, or email account.

Just click on the appropriate icon and post what you wish to share. This will allow you to receive feedback on findings and publications more quickly from your collaborators, peers and students, increasing your efficiency during already busy workdays.

The screenshot displays a ScienceDirect article page. The main title is "CHAPTER 19 - MULTIDRUG RESISTANCE PROTEIN 1 (ABCC1)" by Roger G. Deeley and Susan P.C. Cole. A social sharing menu is open, highlighting the "Email", "Facebook", "Twitter", "LinkedIn", and "Reddit" options. The page also features a sidebar with "Figures (7)", "Tables (1)", and "Article Metrics" (Citations: 10, Readers: 11). The article content includes an introduction and a section on the historical background of MRP1.

Users can share articles with the community

A research experience accessible to all

We optimize the ScienceDirect experience for everyone, including people with impairments such as auditory, cognitive, physical, speech or visual.

Our goal is to meet level A and AA guidelines established by the W3C's Web Content Accessibility Guidelines 2.1 and the U.S. Section 508 Standards of the Federal Rehabilitation Act, as well as similar standards enacted by countries around the globe.

Here are some features that enhance the accessibility of ScienceDirect:

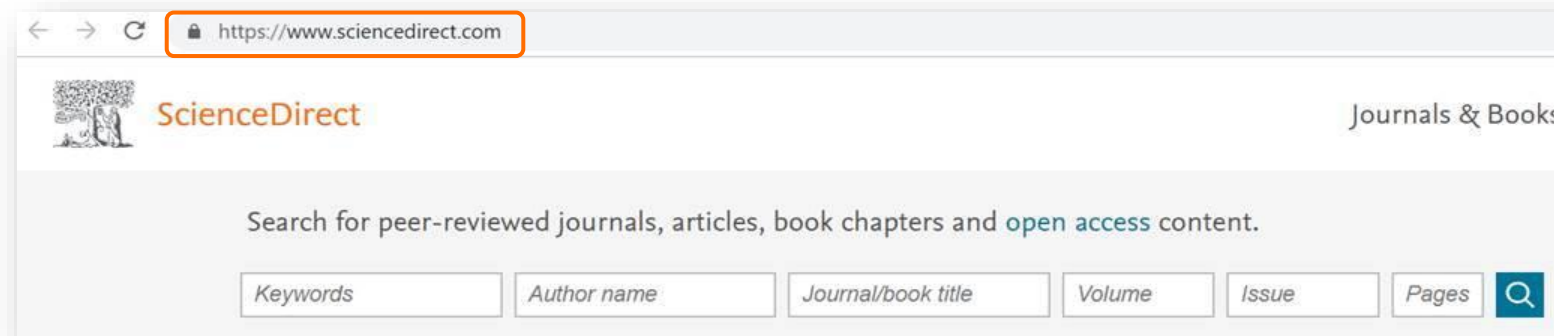

- HTML journal articles and book chapters are compatible with screen readers such as JAWS, NVDA and Apple's VoiceOver
- Pages are well structured using headings, landmarks and lists so users of assistive technology can easily jump around pages
- Math content is available in MathML, which can be spoken by text-to-speech engines or converted to Braille and pasted into math equation editors or Microsoft Office documents
- Pages employ ARIA (Accessibility for Rich Internet Applications) to enhance navigation, orientation and labeling for users of screen readers and other assistive technology
- Videos are played in a fully accessible media player (AblePlayer)
- For more information on ScienceDirect accessibility, or for accessibility related feedback and support, please refer to our [accessibility statement](#)

Security is important to you and us

We're more proactive than ever in preventing security breaches - and taking quick action if any occurs. Monitoring and communication are fundamental in keeping your interaction with ScienceDirect as secure as possible:

- We monitor on a 24/7 basis and block the session IP if we detect abnormal behavior
- We get in touch with you and ask you to investigate the particular IP
- If solved, we unblock the IP

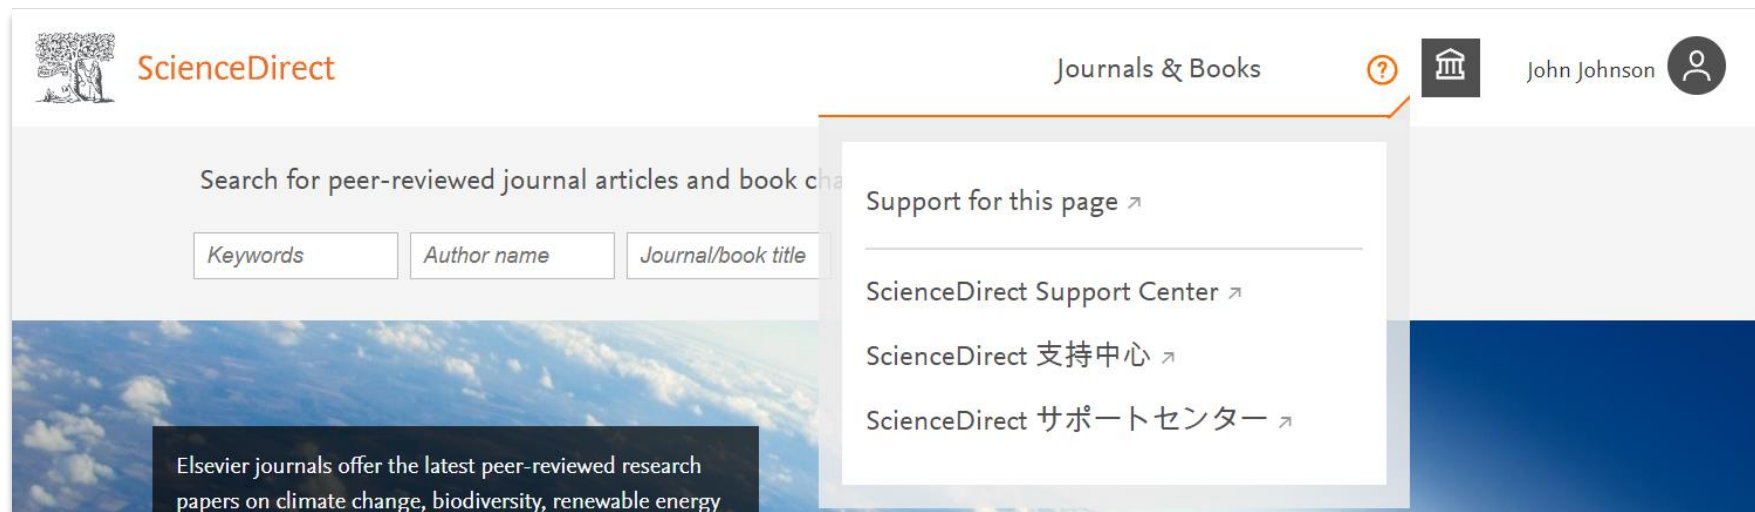

ScienceDirect is also available via HTTPS

Seek help when you need it

Our [ScienceDirect Support Center](#) can answer your frequently asked questions and offers video tutorials and other user guides.

You can access the ScienceDirect Support Center by clicking the Help button in the upper right corner of the ScienceDirect pages or by following the link above. Now also available in Chinese and Japanese!

The screenshot shows the ScienceDirect website interface. In the top right corner, there is a navigation bar with the text "Journals & Books", a question mark icon (the Help button), a library icon, and the user name "John Johnson" next to a profile icon. A dropdown menu is open from the question mark icon, containing the following links:

- Support for this page ↗
- ScienceDirect Support Center ↗
- ScienceDirect 支持中心 ↗
- ScienceDirect サポートセンター ↗

The main content area features a search bar with the text "Search for peer-reviewed journal articles and book chapters" and three input fields labeled "Keywords", "Author name", and "Journal/book title". Below the search bar, there is a banner image of a globe with the text: "Elsevier journals offer the latest peer-reviewed research papers on climate change, biodiversity, renewable energy".

Click the question mark button to link to the Support Center
